

THE GEORGE WASHINGTON UNIVERSITY
WASHINGTON DC

The George Washington University
SCHOOL OF PUBLIC HEALTH AND HEALTH SERVICES
Faculty Positions

Assistant Professor – Associate Professor – Professor

The Department of Global Health at The George Washington University School of Public Health and Health Services invites applications for multiple, tenure-earning or non-tenure-earning, faculty positions with rank commensurate upon qualification. The Department resides in the CEPH accredited School of Public Health and Health Services.

In particular, the Department encourages applications from candidates interested in building innovative research and education programs in one or more of its priority areas which include: Regulatory Science and/or Comparative Policy; Program Design, Monitoring and Evaluation; Nutrition and Food Security; Public Health Communication, and Policy Analysis.

The mission of the Department of Global Health is to advance research, education and scholarly practice that contribute to the policy and program development required to meet the evolving health challenges of the 21st century. Innovative programs of study within the Department include Global Health Policy; Program Design, Monitoring and Evaluation; and Health Communications. Joint programs are also managed in concert with collaborating Departments in Global Health Management; Global Health Epidemiology and Global Environmental Health. Through interdisciplinary and international academic training, the Department's Doctoral and Masters Students acquire the understanding, knowledge, and skills to improve the health and well-being of people around the world.

Basic Qualifications: Applicants must possess a doctoral degree in an appropriate public health, public policy, law, social science, management or medical discipline, and experience teaching and mentoring students. Successful candidates at the rank of Associate Professor or Professor will have a solid publication record and demonstrated ability to consistently obtain research funding. Candidates applying for consideration at the Assistant Professor level should have demonstrated potential for securing external funding and producing peer-reviewed publications.

Preferred Qualifications: Preference will be given to applicants who have professional experience in two or more regions of the world as well as experience in at least one developing region or sub-region; a track record in teaching, supervising graduate students, and developing funded research; a strong methodological foundation; strong verbal and written communication skills, and will be available to travel and engage in international research and teaching collaborations, including long term assignments to be based in East Africa, South Asia, and East Asia. Preference will be given to candidates who have demonstrated a history of collaborative work. Preference will be given to candidates who have substantive expertise and have demonstrated a history of collaborative work in one or more of its priority areas which include: Regulatory Science and/or Comparative Policy; Program Design, Monitoring and Evaluation; Nutrition and Food Security; Public Health Communication, and Policy Analysis.

Application Procedure: Highly motivated individuals with appropriate backgrounds are encouraged to apply. Interested applicants should submit the following documents electronically: 1) a curriculum vitae; 2) a statement of research interests and accomplishments and plans for maintaining or developing an independently-funded research program; 3) a statement of teaching and mentoring experience; and 4) names and contact information for three references. Only complete applications will be considered. Review of applications will begin on February 7, 2011, and continue until the positions are filled.
